EXPERIENCE

Bonzai. Front End Developer.

February 2019 – April 2019 | Washington, DC | ilovebonzai.com

- Worked with a team of front- and back-end developers to prototype React + Redux + Cordova social media application.
- Developed and integrated a Node + Cordova external sharing feature that serves Open Graph data to crawlers and a registration page to users.
- Launched MailChimp user registration campaign.
- Developed company website.

Last Call. Front End Developer.

September 2018 – January 2019 | Washington, DC | last-call-82705.web.app

- Developed Angular + Ionic + Firebase prototype food ordering application to demonstrate to potential restaurant partners, which helped lead to a Beefsteak partnership.
- Integrated with Firebase for authentication and Cloud Firestore database functionality.
- Developed tab navigation system in a second React Native prototype application.

Alliance for Patient Access. Web Developer.

January 2017 – February 2019 | Washington, DC

- Launched a fork of the html5blank WordPress boilerplate to build custom themes for several websites.
- Developed custom PHP tool for sorting documents by multiple different taxonomies on IfPA and GAfPA.
- Performed compatibility checks and updated each site to PHP 7.2 at the end of the PHP 5.6 lifecycle.
- Debugged legacy themes for AfPA, ABPM, and PSO to retain functionality with newer versions of WordPress & PHP.
- Tracked and maintained WordPress plugins and licenses; including ACForms, JetPack, Akismet, and several lightbox and slider tools.

Inkoo. Marketing Intern.

September 2016 – December 2016 | Barcelona, ES | inkoo.es

- Designed & maintained Inkoo's WordPress website.
- Provided original research for Inkoo's EV charger installation program.

Digital Media Academy. Instructor.

July 2016 – August 2016 | Washington, DC

- Organized and lead several two- and three-week coding classes.
- Lead an intermediate Java coding class, where students aged 14-16 developed simple games.
- Lead an introductory coding class, where students aged 7-11 developed Minecraft skins and mods.

PROJECTS

Hackital. Founder & Sponsorship Coordinator.

April 2016 – May 2018 | Washington, DC | hackital.io

- Cofounded annual Foggy Bottom international student hackathon.
- Developed responsive MailChimp email marketing campaigns that boosted pre-event registration by nearly 50%.
- Organized several weekend-long events with up to 400 attendees from across North America.
- Recruited sponsors such as Raytheon, Facebook, and Consensys.

Budbot. UI & Backend Developer.

April 2016 – August 2016 | Washington, DC | budbot.co

- Developed an experimental text bot interface with Python + Plivo.
- Designed and launched product registration webpage.
- Consulted attorney specializing in i71 in anticipation of product launch.
